The parties in this matter agree to the terms and conditions of the attached Stipulation, subject to the approval of the Board. The Board has reviewed this Stipulation and considers it acceptable.

In the interest of resolving this matter, Respondent neither admits nor denies the allegations against her and consents to the entry of the following Findings of Fact, Conclusions of Law and Order.

Accordingly, the Board in this matter adopts the attached Stipulation and makes the following:

FINDINGS OF FACT

1. Nancy A. Granlund (D.O.B. 10/22/1956) is duly licensed as a registered nurse in the state of Wisconsin (license #99022). This license was first granted on 04/01/1988.

2. Respondent's most recent address on file with the Wisconsin Board of Nursing is N34W23133 Circle Ridge, Pewaukee, WI 53072.

3. At all times relevant to this action, Respondent worked as Director of Nursing at River Hills West Health Care Center ["River Hills"], 321 Riverside Drive, Pewaukee, Wisconsin. River Hills is a long-term care facility

4. On November 30, 1999, PC, an elderly female resident of River Hills, was seen on rounds by her physician for pain in her left foot. The doctor at that time ordered a physical therapy evaluation. It is unclear from the patient records whether or not the physician ever actually examined PC's foot. Nursing notes show PC's was running a low temperature, and that her white blood cell count was slightly elevated.

5. On December 1, 1999 at approximately 6:00 a.m., CD, a licensed practical nurse, checked on the condition of PC. The LPN charted that she was unable to detect a pedal pulse in PC's left foot. She also noted a small bruise on the top of PC's left foot, that her left foot was ruddy colored and that it was slightly cool.

6. The information contained in paragraph 5 above was included on the facility's 24-hour Change of Condition report form.

7. Respondent was on duty as Director of Nursing at River Hills from December 1, 1999 through December 9, 1999. During that period of time Respondent in addition served as a consultant at another facility.

8. On December 2, 1999 PC's physician issued a telephone order for Duricef to treat PC's foot.

9. The charting for PC following December 1, 1999 and continuing on through the morning of December 8, 1999 shows no follow-up assessment of PC's foot that includes a documentation of pedal pulse, an examination for capillary refill, or a comparison of PC's left foot with her right.

10. The charting for PC following December 1, 1999 and continuing on through the morning of December 8, 1999 fails to include any documentation of notification to PC's physician of the lack of a pedal pulse in PC's left foot.

11. On December 9, 1999, PC was taken to a vascular surgeon at the request of her family. The vascular surgeon who examined PC on December 9, 1999 found no pulse in PC's left foot and observed that PC's left foot was mottled, "ice cold" and "essentially dead."
