STATE OF WISCONSIN
BEFORE THE BOARD OF NURSING

IN THE MATTER OF
DISCIPLINARY PROCEEDINGS AGAINST

TODD J. COUGHLIN, LPN

ORDER ADOPTING STIPULATION

Respondent

On September 12, 1996, the Board of Nursing issued its Final Decision and Order in the above-captioned matter. By the terms of the board's order, respondent's license to practice as a licensed practical nurse was suspended for an indefinite period of not less than two years, with provision for successive three-month stays of the suspension conditioned upon compliance with certain conditions and limitations on the license. Among these were that respondent participate in a recognized program for the treatment of chemical dependency, that he participate in therapy a minimum of four times each month, that he submit to random urine screens for the presence of alcohol and controlled substances, and that he provide for quarterly written reports from his employer, his therapist and the monitoring program. The Order also provided that respondent refrain from access to or administration of controlled substances until such time as access and administration is approved by the board.

By its Order dated March 17, 1997, the board suspended the license based upon respondent's failure to comply with the terms and conditions of his limited license.

By letter dated January 13, 2002, respondent petitioned for reinstatement of his license, and he appeared before the board on March 1, 2002, in support of his petition. Thereafter, the board agreed to issue, and Todd J. Coughlin agreed to accept, a limited license to practice as a practical nurse in Wisconsin. Based upon that Stipulation, it is ordered as follows:

ORDER

NOW, THEREFORE, IT IS ORDERED that Todd J. Coughlin, LPN, is hereby granted a limited license to practice practical nursing imposing the following terms and conditions:

1. The term of the license shall be for a period of three months. Respondent may apply for consecutive three (3) month renewals of the license, which shall be granted upon acceptable demonstration of compliance with the conditions and limitations set forth herein.
2. The Board may without hearing deny an application for a renewal of the license, or commence other appropriate action, upon receipt of information that respondent has violated any of the terms or conditions of the board's Order adopting this Stipulation. If the Board denies the petition by the respondent for an extension, the Board shall afford an opportunity for hearing in accordance with the procedures set forth in ch. RL 1, Wis. Adm. Code upon timely receipt of a request for hearing.
3. Respondent's license to practice shall be LIMITED as follows:
 - a. Respondent's practice shall be initially restricted to participation in a nurse refresher course. Upon successful completion of the nurse refresher course, respondent may resume the practice of practical nursing in any approved setting.
 - b. Respondent shall continue successful participation in all components of a drug and alcohol treatment program at a treatment facility acceptable to the Board, as respondent's Supervising Health Care Provider shall determine to be appropriate for respondent's rehabilitation. The treatment program shall include and respondent shall participate in individual therapy sessions for the first year of the stayed suspension upon a schedule as recommended by his supervising physician, but not less than once weekly. Such therapy shall be conducted by the supervising physician or therapist, or another qualified physician or therapist as designated by the supervising physician or therapist and acceptable to the Board. After the first year of stayed suspension, this requirement for therapy sessions may be modified only upon written petition, and a written recommendation by the supervising physician or therapist expressly supporting the modifications sought. A denial of such petition for modification shall not be deemed a denial of the license under §§ 227.01(3) or 227.42, Wis. Stats., or ch. RL 1, Wis. Adm. Code, and shall not be subject to any right to further hearing or appeal.

Sobriety

- c. Respondent shall abstain from all personal use of controlled substances as defined in Sec. 161.01(4), Stats. except when necessitated by a legitimate medical condition and then only with the prior approval of the Supervising Health Care Provider.
- d. Respondent shall abstain from all personal use of alcohol.
- e. Respondent shall in addition refrain from the consumption of over-the-counter medications or other substances which may mask consumption of controlled substances or of alcohol, or which may create false positive screening results, or which may interfere with respondent's treatment and rehabilitation. Respondent shall report all medications and drugs, over-the-counter or prescription, taken by respondent to the Supervising Health Care Provider within 24 hours of ingestion or administration, and shall identify the person or persons who prescribed, dispensed, administered or ordered said medications or drugs. Within 24 hours of a request by the Supervising Health Care Provider or the Board or its designee, Respondent shall provide releases which comply with state and federal laws authorizing release of all health care records by the person who prescribed, dispensed, administered or ordered this medication for respondent. These releases shall also authorize the Supervising Health Care Provider, the Board or its designee to discuss the Respondent's health care with the person who prescribed, dispensed, administered or ordered this medication. The terms of this paragraph shall not be deemed to modify or negate Respondent's obligations as set forth in this Order.

- i. Respondent shall keep the Supervising Health Care Provider informed of Respondent's location and shall be available for contact by the Supervising Health Care Provider at all times.

- (2) Respondent's last provided specimen was determined by the laboratory to have a specific gravity of less than 1.003 and creatinine concentration below 0.2 g/l;
- (3) The collection site person observes Respondent acting in such a manner to provide reason to believe that Respondent may have attempted or may attempt to substitute or adulterate the specimen. The collection site person, if he or she believes that the initial urine specimen may have been adulterated or a substitution made, shall direct Respondent to provide an additional observed urine specimen;
- (4) The last provided specimen resulted in a positive or suspected positive test result for the presence of controlled substances; or
- (5) The Board (or any member of the Board), the Department Monitor, or Respondent's Supervising Health Care Provider directs that the urine specimen collection be by direct observation.

k. If either of the above conditions (a) or (c) requires collection of an additional observed urine specimen, the collection of the subsequent specimen shall be accomplished within the required five (5) hours of the request for the initial specimen; the collection of the initial specimen shall not satisfy the requirement that the urine specimen be collected within five (5) hours of the request for the initial specimen.

l. The treatment program in which Respondent is enrolled shall at all times utilize a United States Department of Health and Human Services certified laboratory for the analysis of all specimens collected from Respondent.

Every urine specimen collected from Respondent shall be further analyzed at the laboratory for tampering by measuring the creatinine concentration and the specific gravity of the specimen. The laboratory may at its discretion or at the direction of a Supervising Health Care Provider or the Board or any member thereof conduct additional tests to evaluate the urine specimen for tampering including, but not limited to, pH, color and odor.

p. Every urine, blood or hair specimen collected from Respondent shall be analyzed for alcohol, amphetamine, cocaine, opiates, phencyclidine, marijuana, methadone, propoxyphene, methaqualone, barbiturates, benzodiazepines or the metabolites thereof. The Board or its designated agent may at any time direct that screens for additional substances and their metabolites be conducted by scientific methods and instruments appropriate to detect the presence of these substances. The laboratory shall conduct confirmatory tests of positive or suspected positive test results by appropriate scientific methods and instruments including, but not limited to, gas chromatography and mass spectrometry.

q. All urine, blood or hair specimens remaining after testing shall be maintained in a manner necessary to preserve the integrity of the specimens for at least seven (7) days; and all positive or suspected positive urine, blood or hair specimens remaining after testing shall be so maintained for a period of at least one (1) year. The Supervising Health Care Provider or the Board or any member thereof may direct that the urine, blood or hair specimens be maintained for a longer period of time.

controlled substances or their metabolites.

s. If any urine, blood or hair specimen is positive or suspected positive for any controlled substances or alcohol, Respondent shall promptly submit to additional tests or examinations as the Supervising Health Care Provider shall determine to be appropriate to clarify or confirm the positive or suspected positive urine, blood or hair specimen test results.
