

WISCONSIN DEPARTMENT OF REGULATION & LICENSING

Wisconsin Department of Regulation & Licensing Access to the Public Records of the Reports of Decisions

This Reports of Decisions document was retrieved from the Wisconsin Department of Regulation & Licensing website. These records are open to public view under Wisconsin's Open Records law, sections 19.31-19.39 Wisconsin Statutes.

Please read this agreement prior to viewing the Decision:

- The Reports of Decisions is designed to contain copies of all orders issued by credentialing authorities within the Department of Regulation and Licensing from November, 1998 to the present. In addition, many but not all orders for the time period between 1977 and November, 1998 are posted. Not all orders issued by a credentialing authority constitute a formal disciplinary action.
- Reports of Decisions contains information as it exists at a specific point in time in the Department of Regulation and Licensing data base. Because this data base changes constantly, the Department is not responsible for subsequent entries that update, correct or delete data. The Department is not responsible for notifying prior requesters of updates, modifications, corrections or deletions. All users have the responsibility to determine whether information obtained from this site is still accurate, current and complete.
- There may be discrepancies between the online copies and the original document. Original documents should be consulted as the definitive representation of the order's content. Copies of original orders may be obtained by mailing requests to the Department of Regulation and Licensing, PO Box 8935, Madison, WI 53708-8935. The Department charges copying fees. *All requests must cite the case number, the date of the order, and respondent's name as it appears on the order.*
- Reported decisions may have an appeal pending, and discipline may be stayed during the appeal. Information about the current status of a credential issued by the Department of Regulation and Licensing is shown on the Department's Web Site under "License Lookup." The status of an appeal may be found on court access websites at: <http://ccap.courts.state.wi.us/InternetCourtAccess> and <http://www.courts.state.wi.us/wscca>.
- Records not open to public inspection by statute are not contained on this website.

By viewing this document, you have read the above and agree to the use of the Reports of Decisions subject to the above terms, and that you understand the limitations of this on-line database.

STATE OF WISCONSIN
BEFORE THE BOARD OF NURSING

IN THE MATTER OF

DISCIPLINARY PROCEEDINGS AGAINST

BRENDA L. KLABACKA, L.P.N.,

Respondent

On January 9, 1997, the Board of Nursing issued its Final Decision and Order in the above-captioned matter. By the terms of the board's order, respondent's license to practice as a licensed practical nurse was suspended for an indefinite period of not less than two years, with provision for successive three-month stays of the suspension conditioned upon compliance with certain conditions and limitations on the license. Among these were that respondent participate in a recognized drug treatment program, that she participate in therapy as recommended by her therapist but not fewer than two sessions per month, that she submit to random urine screens for the presence of alcohol and controlled substances a minimum of four times per month, and that she provide for quarterly written reports from her employer, her therapist and the monitoring program. The Order also provides that respondent refrain from access to or administration of controlled substances in her work setting until such time as access and administration is approved by the board.

By letter dated July 30, 1997, Mark A. Huffman, M.D. Medical Review Officer for Totally Positive Drug Testing Review, S.C., Ms. Klabacka's drug testing facility, reported that on July 22, 1997, Ms. Klabacka tested positive for Propoxyphene and Butabital. The letter also indicated that Ms. Klabacka had failed to notify the program either of the identity of her treating physician or that she was taking Propoxyphene. Sarah Groth, CICSW, CADS III, Ms. Klabacka's therapist, notified the board by letter dated July 31, 1997, that Ms. Klabacka had missed therapy sessions on August 6, August 20, and September 3.

Based on these failures by respondent to comply with the requirements of her limited license, the board on September 12, 1997, denied Ms. Klabacka further stays of the suspension of her license.

By letter dated October 28, 1999, Ms. Klabacka petitioned the board for a further stay of the suspension of her license, and she appeared before the board on January 6, 2000, in support of her petition. The board granted the request by its Order dated January 18, 2000.

On May 19, 2000, the board considered Ms. Klabacka's request for a further three month stay of the suspension of her license. The board also considered evidence of Ms. Klabacka's having violated the terms of her limited license, and the stay was denied by the board's Order dated June 6, 2000.

On September 1, 2000, Ms. Klabacka, along with Attorney Kenneth R. Sipsma, appeared before the board in support of her request that the stay of the suspension of her license be reinstated. Ms. Klabacka also requested that the board's most recent Final Decision and Order in the matter dated May 14, 1999, be modified to permit her access to and administration of controlled substances in her employment setting. The board considered the matter on that date, and granted Ms. Klabacka's requests by its Order dated September 8, 2000.

On February 2, 2001, the board considered Ms. Klabacka's request for a further three month stay of the suspension her license. The board also considered information establishing that Ms. Klabacka had been in violation of the limitations on her license, including that Ms. Klabacka had never presented a copy of the board's Order to either her employer or her therapist, and that there had been several positive urine screens. Based upon that information, the board denied the stay.

On June 6, 2002, the board considered Ms. Klabacka's request for reinstatement of the stay of suspension, and Ms. Klabacka appeared before the board on that date in support of her petition. At that time the board and Ms. Klabacka discussed Ms. Klabacka's participation in a methadone treatment program.

The board historically has taken and continues to take the position that a licensee of this board should not be permitted to practice during a period of time when he or she is involved in a methadone treatment program. While the board takes no position on the appropriateness of a methadone program as a treatment modality, the board does not believe that it is in the interest of the public health, welfare or safety to permit a health care provider licensed by this board to practice during a time when he or she is under the influence of a narcotic substance. The board therefore denied the stay.

Ms. Klabacka appeared before the board at its meeting of July 11, 2002, in support of her further request that she be granted a stay. At that time, Ms. Klabacka indicated that she had terminated the methadone treatment program, as evidenced by her most recent screens. Accordingly, the board granted the stay.

On October 4, 2002, the board considered Ms. Klabacka's request for a further three month stay of the suspension, and her further request that the number of required urine screens be reduced. Based upon the board's conclusion that it is too soon to reduce the number of required screens, the board granted the stay but denied the reduction in screens.

On January 10, 2003, the board considered Ms. Klabacka's petition for a further stay of the suspension, and renewal of her request for a reduction in the number of urine screens. Based upon the board's conclusion that the number of screens should not be reduced at a time when Ms. Klabacka is not employed as a nurse, the board granted the stay, but denied the request for a reduction in screens.

On April 4, 2003, the board considered Ms. Klabacka's request for a further three month stay of the suspension and for reduction in the number of required screens and the number of therapy sessions. The stay and the reduction in the number of therapy sessions was granted. The reduction in the number of urine screens was not.

On August 5, the board considered Ms. Klabacka's request for a stay, renewal of her request for a reduction in the number of required urine screens, pre-approval of a number of work sites, and elimination of the prohibition against being employed in home health care. Based upon all information of record herein, the board orders as follows:

ORDER

NOW, THEREFORE, IT IS ORDERED that the request for a three month stay of the suspension of the license of Brenda L. Klabacka, R.N., to practice as a professional nurse in Wisconsin is hereby granted.

IT IS FURTHER ORDERED that Skaalen and Oak Park are approved as employment sites.

IT IS FURTHER ORDERED that because of short time during which Ms. Klabacka has been employed as a nurse,

her request for a reduction in the number of required urine screens is denied.

IT IS FURTHER ORDERED that Ms. Klabacka's request that she be permitted to be employed in a home health setting is denied.

Dated this 14th day of August, 2003.

STATE OF WISCONSIN

BOARD OF NURSING

Linda M. Sanner, RN

Chair
