PROCEDURAL HISTORY

The parties in this matter agree to the terms and conditions of the attached Stipulation as the final decision of this matter subject to the approval of the Board of Nursing. The Board has reviewed this Stipulation and considers it acceptable.

Accordingly, the Board adopts the attached Stipulation and makes the following:

FINDINGS OF FACT

1. Kelly Elizabeth Schleusener, R.N., Respondent, date of birth February 26, 1975, is licensed by the Wisconsin Board of Nursing as a registered nurse in the state of Wisconsin pursuant to license number 134371, which was first granted March 8, 2000.
2. Respondent's last address reported to the Department of Regulation and Licensing is 15428 Hazel Green Road Tomah, WI 54660.

COUNT I

3. Respondent was employed as a registered nurse (RN) by Aureus Nursing, LLC, a nurse staffing agency located in Omaha, NE, and from June 30 to July 5, 2007, worked as a contract employee at Monroe Clinic and Hospital in Monroe Wisconsin.

4. On July 4-5, 2007, Respondent worked the night shift in the Emergency Department at Monroe Clinic.

a. At 3:17 a.m., Respondent removed a 2 mg vial of injectable Dilaudid (hydromorphone, a schedule I controlled substance) from the Pyxis dispensing machine and indicated it was for a specific patient, who did not have practitioner's order for Dilaudid. Respondent did not record administering the Dilaudid to the patient. Respondent kept the Dilaudid for her personal use without the order of a practitioner.

b. At approximately 4:30 a.m., another RN tried to find Respondent because she had not seen her for approximately 10-15 minutes. When the RN did not find her in any of the ER rooms, she went to the break room and noticed that the bathroom door was shut and light was visible from underneath the door but she did not hear anything.

c. Shortly after returning from the break room, the RN saw Respondent. She noticed Respondent's eye looked glassy and there was bright red blood smeared on Respondent's white lab coat and a tourniquet hanging from her pocket. Respondent sat down and said, "I don't feel so good. Maybe I'm just not used to working nights." For the rest of the shift, she would talk slowly and avoided conversation. Respondent's eyes remained glassy and her pupil appeared tiny. She periodically dozed off for a few seconds at a time.

d. At approximately 6:30 a.m., the RN used the break room bathroom and found blood smeared on the sink droplets of blood on the floor and a cap from a hypodermic needle on the floor.

e. At 7:00 a.m., the RN and Respondent clocked out and Respondent went upstairs to guest housing to sleep. A few minutes later, Respondent was back in the ER and was seen removing items from the supply cart, which contained needles and syringes. When she was asked what she was doing, Respondent said she had a sliver in her hand. Respondent refused an offer of help removing the sliver and left the ER holding needles in her hand.

5. Following that incident, a review was done of Respondent's Pyxis withdrawals and her documentation of medications administered for the four 12-hour shifts Respondent had worked from June 30 to July 5 and the following discrepancies were noted:

a. 6/30/07–Dilaudid (Brand of hydromorphone, a schedule II controlled substance) 2 mg cartridge removed at 10:30 p.m. 0.5 mg ordered and documented as given. 1 mg wasted at 11:51 p.m. 0.5 mg unaccounted for.

b. 7/1/07–Dilaudid 2 mg cartridges removed at 11:07 p.m. and 1:43 a.m. Total of 3 mg ordered and documented as given. No waste recorded. 1 mg unaccounted for.

c. 7/1/07–Lorazepam (benzodiazepine and Schedule IV controlled substance) 2 mg vial removed for patient at 11:48 p.m. 1 mg ordered and documented as given. No waste recorded. 1 mg unaccounted for.

COUNT II

6. Respondent was employed as a registered nurse by St. Joseph's Community Health Services in Hillsboro Wisconsin on July 18, 2008, and attended a meeting held of all employees of the OR and Pharmacy staff to discuss medication discrepancies that had occurred the previous week. After several things were discussed, it was suggested that all staff be tested for drug use. The administrators left the room to discuss the process for the urine testing and when they returned, Respondent was sobbing and said, "I'm sorry, I'm sorry." When asked what she meant, Respondent admitted she had a drug problem, that she had forged signatures on the records and that she diverted six ampules of fentanyl for her own use, without the order of practitioner. Fentanyl is a narcotic analgesic and schedule II controlled substance.

CONCLUSIONS OF LAW

1. The Wisconsin Board of Nursing has jurisdiction over this matter pursuant to Wis. Stat. § 441.07 and authority to enter into this stipulated resolution pursuant to Wis. Stat. § 227.44(5).

2. Respondent, by obtaining and using a drug other than in the course of legitimate practice and as otherwise prohibited by law, as set out above, has committed misconduct and unprofessional conduct as defined by Wis. Admin. Code N 7.04(2) and is subject to discipline pursuant to Wis. Stat. § 441.07(1)(d). [Counts I and II]

The hearing shall be held in a timely manner with the evidentiary portion of the hearing being completed within 60 days of receipt of Respondent's request, unless waived by Respondent. Requesting a hearing does not stay the suspension during the pendency of the hearing process.
