- The Reports of Decisions is designed to contain copies of all orders issued by credentialing authorities within the Department of Regulation and Licensing from November, 1998 to the present. In addition, many but not all orders for the time period between 1977 and November, 1998 are posted. Not all orders issued by a credentialing authority constitute a formal disciplinary action.

Because this data base changes constantly, the Department is not responsible for subsequent entries that update, correct or delete data. The Department is not responsible for notifying prior requesters of updates, modifications, corrections or deletions. All users have the responsibility to determine whether information obtained from this site is still accurate, current and complete.
- There may be discrepancies between the online copies and the original document. Original documents should be consulted as the definitive representation of the order's content. Copies of original orders may be obtained by mailing requests to the Department of Regulation and Licensing, PO Box 8935, Madison, WI 53708-8935. The Department charges copying fees. *All requests must cite the case number, the date of the order, and respondent's name as it appears on the order.*

TO: Joel C. Jacobson, M.D.  
3245 Walden Lane  
Oshkosh, WI 54904-7009

On January 24, 2007 the Wisconsin Medical Examining Board (Board) issued a Final Decision and Order (Order) suspending the petitioner's license to practice as a physician and surgeon for an indefinite period, but provided the suspension shall be stayed subject to compliance with certain requirements. The requirements included individual and/or group therapy sessions, required random drug screens at the frequency of 96 times per year, and mandatory AA/NA meetings. The Board granted an initial stay of the suspension on July 27, 2007. Thereafter, the petitioner sought a reduction in the number of random drug screens.

On February 29, 2008, the Board granted the petitioner's request to modify the number of random drug screens by reducing the number of screens to 48 times per year until the petitioner returned to employment at which time the screens shall revert to 96 times per year. The Board granted an additional modification on November 6, 2009 reducing the number of drug screens to 28 times per year.

On November 17, 2010, the Wisconsin Medical Examining Board considered the petitioner's request for modification to reduce the number of his required random drug screens from 28 times per year to 14 times per year. Based upon the information of record, the Board now finds and orders the following:
