The parties in this matter agree to the terms and conditions of the attached Stipulation as the final decision of this matter, subject to the approval of the Board of Nursing. The Board has reviewed the attached Stipulation and considers it acceptable.

Accordingly, the Board in this matter adopts the attached Stipulation and makes the following:

FINDINGS OF FACT

1. Sue R. Schindler, R.N., (DOB 10/26/1971) is licensed as a professional nurse in the State of Wisconsin (license no. 118805-30). This license was first granted on February 11, 1995.

2. Respondent's most recent address on file with the Wisconsin Board of Nursing is 680 Baker Road, Hudson, WI 54016.

3. On February 3, 2011, The Minnesota Board of Nursing ("Minnesota Board") adopted a Stipulation and Consent Order issuing Respondent a reprimand based on an incident in which Respondent changed the route and dosage of a medication without authorization, failed to clarify the concentration of the medication with the prescriber, and allowed another nurse to document Respondent's medication administration in the the patient's record.

4. On April 5, 2012, the Minnesota Board issued a Stipulation and Consent Order ("Order") suspending Respondent's license to practice nursing in the State of Minnesota for a minimum of 12 months. The Order was based on the following facts:

- a. On June 12, 2011, while working in an emergency department, Respondent appeared impaired and was asked to undergo a drug test. Respondent tested positive for three narcotic-like substances. In addition, a syringe containing .5 mg of Ativan (lorazepam) and a syringe containing 2 mg of Dilaudid (hydromorphone) were found in Respondent's pocket. Respondent was placed on medical leave to attend chemical dependency.
- b. An investigation into Respondent's narcotics handling during June 2011 revealed that on multiple occasions, Respondent withdrew morphine and Dilaudid in dosages greater than was ordered; withdrew Benadryl without orders and then cancelled the transactions; withdrew morphine without orders and then documented wastage of the full amounts withdrawn; documented waste of medications less than the amount expected based on the amount withdrawn and administered; and withdrew a narcotic after another nurse had already administered the medication, and then documented waste of the entire amount withdrawn.
- c. Respondent admitted she was chemically dependent and acknowledged that on June 11, 2011, she was impaired while on duty. Respondent denied diverting medications from her employer. Respondent also disclosed that she had been using heroin since August 2010. Respondent denied using heroin at work, but admitted she would use emergency department patients to get leads on where to obtain heroin on the street.
- d. In a written response to the Minnesota Board's Review Panel, Respondent indicated that her sobriety date is June 12, 2011 and she provided a letter from her chemical dependency program indicating that Respondent is diagnosed with opioid dependence and sedative, hypnotic, or anxiolytic dependence, and on August 3, 2011, she successfully completed an intensive outpatient chemical dependency treatment program.

5. Respondent may petition the Minnesota Board for reinstatement of her license upon the following:

- a. Respondent shall submit a report from Respondent herself;
- b. Respondent shall submit reports from two adult persons who can attest to Respondent's sobriety;
- c. Respondent shall submit a report from her employer;
- d. Respondent shall submit a report from any mental health treatment professional whom Respondent consults while this Stipulation and Consent Order is in effect;
- e. Respondent shall submit a report from any health care professional whom Respondent consults for physical health, mental health or chemical dependency treatment while this Stipulation and Consent Order is in effect;
- f. Respondent shall submit a report from any and all physicians, dentists, and other authorized health care professionals who have prescribed mood-altering chemicals for Respondent during the period this Stipulation and Consent Order is in effect;
- g. If requested by the Minnesota Board, Respondent shall undergo a chemical dependency evaluation within 60 days of the request. The results of the evaluation shall be sent directly to the Minnesota Board.
- h. Respondent shall comply promptly with any recommendations for additional evaluation and treatment made by the chemical dependency evaluator;
- i. If requested by the Minnesota Board, Respondent must undergo a mental health evaluation within 60 days of the request. The results shall be sent directly to the Minnesota Board;
- j. Respondent shall comply promptly with any recommendations for additional evaluation and treatment made by the mental health provider;
- k. At any time during the petition process, the Minnesota Board may direct Respondent to submit to laboratory hair, blood and urine screenings to determine the presence or absence of alcohol or drugs.

CONCLUSIONS OF LAW

1. The Wisconsin Board of Nursing has jurisdiction to act in this matter, pursuant to Wis. Stat. § 441.07, and is authorized to enter into the attached Stipulation and Order, pursuant to Wis. Stat. § 227.44(5).

2. The conduct described in paragraphs 3-4 above constitutes a violation of Wisconsin Administrative Code §§ N 7.03(2), 7.04(2) and (7) and subjects Respondent to discipline pursuant to Wis. Stat. §§ 441.07(1)(c) and (d).

ORDER

IT IS ORDERED, that the attached Stipulation is accepted.

- A.2. The privilege of Sue R. Schindler, R.N. to practice as a nurse in the State of Wisconsin under the authority of another state's license pursuant to the Nurse Licensure Compact is also SUSPENDED for an indefinite period.
- A.3. During the pendency of this Order and any subsequent related orders, Respondent may not practice in another state pursuant to the Nurse Licensure Compact under the authority of a Wisconsin license, unless Respondent receives prior written authorization to do so from both the Wisconsin Board of Nursing and the regulatory board in the other state.
- A.4. Respondent shall mail or physically deliver all indicia of Wisconsin nursing licensure to the Department Monitor within 14 days of the effective date of this order. Limited credentials can be printed from the Department of Safety and Professional Services website at <http://drl.wi.gov/index.htm>.
- A.5. Upon a showing by Respondent of continuous, successful compliance for a period of at least five (5) years with the terms of this Order, including at least 600 hours of active nursing for every year the suspension is stayed, the Board may grant a petition by the Respondent under paragraph D.6. for return of full Wisconsin licensure. The Board may, on its own motion or at the request of the Department Monitor, grant full Wisconsin licensure at any time.

STAY OF SUSPENSION

- B.1. The suspension shall not be stayed for the first six (6) months, but any time after 6 months the suspension may be stayed upon Respondent providing proof, which is determined by the Board or its designee to be sufficient, that Respondent has been in compliance with the provisions of Sections C and D of this Order for the most recent three (3) consecutive months.
- B.2. The Board or its designee may, without hearing, remove the stay upon receipt of information that Respondent is in substantial or repeated violation of any provision of Sections C or D of this Order. A substantial violation includes, but is not limited to, a positive drug or alcohol screen. A repeated violation is defined as the multiple violation of the same provision or violation of more than one provision. - B.5. If Respondent requests a hearing on the removal of the stay, a hearing shall be held using the procedures set forth in Wis. Admin. Code ch. RL 2. The hearing shall be held in a timely manner with the evidentiary portion of the hearing being completed within 60 days of receipt of Respondent's request, unless waived by Respondent. Requesting a hearing does not stay the suspension during the pendency of the hearing process.
