The parties to this action for the purpose of Wis. Stat. § 227.53 are:

Brett J. Wahoske, R.N.  
1055 Wambold Dr.  
Mosinee, WI 54455-9583

The parties in this matter agree to the terms and conditions of the attached Stipulation as the final disposition of this matter, subject to the approval of the Wisconsin Board of Nursing (Board). The Board has reviewed this Stipulation and considers it acceptable.

Accordingly, the Board in this matter adopts the attached Stipulation and makes the following Findings of Fact, Conclusions of Law and Order.

FINDINGS OF FACT

1. Respondent Brett J. Wahoske, R.N., (dob June 23, 1978) is licensed in the State of Wisconsin as a professional nurse, having license number 157810-30, first issued on March 7, 2007 and current through February 29, 2016. Respondent's most recent address on file with the Wisconsin Department of Safety and Professional Services (Department) is 1055 Wambold Drive, Mosinee, Wisconsin 54455-9583.

#### **14 NUR 219**

2. At all times relevant to this case, Respondent was employed as a professional nurse at a community living center (Center), located in Wausau, Wisconsin.

3. On March 16, 2014, Respondent was working as the professional nurse on the night shift.

4. During the morning medication pass, Nurse A found three (3) Norco® tablets in a cup sitting on the medication cart when she began the medication pass.

5. During the medication pass, Patient A requested his pain medication from Nurse A.

6. Nurse A checked the narcotic administration sheet, which indicated Patient A had received several administrations of Norco®, including administration of two (2) tablets of Norco® from Respondent. Therefore, Patient A was not due for more pain medication.

7. Nurse A described Patient A as being very alert, oriented and at his baseline. Nurse A was concerned because Patient A recalls when he receives medication and Patient A insisted that he had not received his medication.

8. Nurse A completed the medication pass and then asked Respondent about the three (3) Norco® tablets in the cup she found on the medication cart.

9. Respondent insisted that Patient A had received two (2) Norco® pills and that Patient A was confused. Patient A insisted he had not received any pain medication.

10. When Nurse A again mentioned Patient A's remarks, Respondent grabbed the cup from Nurse A and dumped the Norco® into the sharps container; violating the proper procedure for wasting medication.

11. Respondent later informed Nurse A that he felt he made a medication error as he had signed out two (2) Norco® pills for Patient A and one (1) Norco® tablet for Patient B and put them in the same cup, but forgot to administer them to either patient.

12. On April 16, 2014, Respondent's employment was terminated.

#### **14 NUR 583**

13. At all times relevant to this case, Respondent was employed as a professional nurse at a rehabilitation facility (Facility), located in Wausau, Wisconsin.

14. On September 23, 2014, Nurse B reported to her supervisor that her patients seemed to be getting as needed narcotics (oxycodone, liquid morphine and hydrocodone) more frequently when Respondent was working. Based on this report, the Facility began an investigation.

15. A review of the narcotic administration records for September 2014 revealed that Respondent administered 217 of the 306 doses of narcotics to fourteen (14) patients.

16. Respondent was suspected of diverting narcotics and the City of Wausau police department was contacted.

17. On October 6, 2014, at 6:50 p.m., a City of Wausau police officer received another call from the nursing team manager that Respondent had dispensed the following narcotics since beginning his shift at 6:00 p.m.:

- a. at 6:20 p.m. – 10 mg liquid morphine to Patient C,
- b. at 6:21 p.m. – 5 mg liquid morphine to Patient D,
- c. at 6:23 p.m. – 5 mg liquid morphine to Patient E,
- d. at 6:24 p.m. – 2 mg liquid morphine to Patient F, and
- e. at 6:24 p.m. – 5 mg liquid morphine to Patient G.

18. At 7:25 p.m., police officers conducted a traffic stop of Respondent as he left the Facility.

19. A search of Respondent's vehicle revealed two (2) used oral syringes and nine (9) used intramuscular syringes which matched the syringes used at the Facility.

20. When asked about the syringes, Respondent stated they were in his car due to a medical condition.

21. At the time of the traffic stop, Respondent denied diverting any medication or narcotics from the Facility.

22. When asked about the narcotics he dispensed prior to leaving the Facility, Respondent stated that he withdraws all the medications for all of his patients, gives them to all the patients, and then documents administration when he is completed with all patients. Respondent stated by doing this he understands his administration times are not properly documented. Respondent acknowledged that he knew this was a violation of the Facility's policy.

23. On October 7, 2014, Respondent admitted to the nursing team manager that he was administering most of the medications to the patients, but was diverting some for his personal use.

24. On October 14, 2014, Respondent admitted the following to the police:

- a. That he diverted liquid morphine during his shifts;

- b. That he injected morphine and that was the reason the syringes were in his car when he was stopped on October 6, 2014;
- c. That since his first week of employment at the Facility, he has diverted a syringe (1 cc) of liquid morphine almost every shift he has worked;
- d. That he drew liquid morphine, took it to his car during his lunch break and injected it after he was done with work;
- e. That he injected the morphine to stay out of detox; and,
- f. That he diverted morphine from patients that did not ask for their as needed medication on his shift.

25. In resolution of this matter, Respondent consents to the entry of the following Conclusions of Law and Order.
