The parties in this matter agree to the terms and conditions of the attached Stipulation as the final disposition of this matter, subject to the approval of the Wisconsin Board of Nursing (Board). The Board has reviewed this Stipulation and considers it acceptable.

Accordingly, the Board in this matter adopts the attached Stipulation and makes the following Findings of Fact, Conclusions of Law and Order.

FINDINGS OF FACT

1. Respondent Ann E. Mertens, R.N., (dob January 19, 1982) is licensed in the State of Wisconsin as a professional nurse, having license number 156924-30, first issued on January 17, 2007, and current through February 28, 2018. Respondent's most recent address on file with the Wisconsin Department of Safety and Professional Services (Department) is 1915 South 15th Street, Manitowoc, Wisconsin 54220.

2. At all times relevant to this proceeding, Respondent was employed as a professional nurse at a hospital (Hospital), located in Westminster, Colorado. Respondent was practicing in Colorado under her Colorado nursing license.

3. On June 4, 2015, at approximately 4:20 p.m., Respondent was observed by the charge nurse standing near the medication room with an intravenous line (IV) sticking out of her left arm. When questioned, Respondent had slurred speech, dry mouth and inconsistent stories.

4. Respondent submitted to a reasonable suspicion/cause urine drug screen. The drug screen was negative for controlled substances.

5. At 6:30 p.m., Respondent was placed on administrative leave pending investigation.

6. At 9:30 p.m., Respondent returned to the Hospital and was observed in the medication room. She accessed the Pyxis® dispensing machine, but did not open any medication drawers.

7. On June 18, 2015, Respondent's employment was terminated.

8. On July 31, 2015, Respondent was employed as a clinical director at a surgery center (Center), located in Louisville, Colorado.

9. On September 3, 2015, the Center conducted an investigation into Respondent's documentation, dispensing and administration practices pursuant to an anonymous phone call.

10. An audit of five (5) random patient records revealed the following:

a. On August 11, 2015, Patient A was being treated for a broken bone in which a pin was being inserted. Patient A had a "block" which limited the feeling in his arm. By having the "block," Patient would not need as much pain medication. Patient A had a physician's order for fentanyl 250 mcg. Respondent documented administering fentanyl 300 mcg to Patient A. Fentanyl comes in 100 mcg's per vial. Respondent also documented administering of 1 mg Versed® to Patient A. Versed® comes in 2 mg's per vial. Respondent did not document the waste of the remaining fentanyl 50 mcg or she administered more than prescribed. Respondent did not document the waste of the remaining Versed® 1 mg. Respondent's documentation of Patient A's pain or discomfort level was inconsistent with the amount of medication administered.

b. On August 21, 2015, Patient B was being treated for sinus issues. Respondent documented administering fentanyl 200 mcg. Respondent's documentation of Patient B's pain or discomfort level was insufficient to justify the amount of fentanyl administered.

c. On August 28, 2015, Patient C was being treated for sinus issues. Patient C had a physician's order for fentanyl 250 mcg. Respondent documented administering fentanyl 300 mcg. Respondent administered more fentanyl than prescribed or she failed to document the waste of the remaining fentanyl 50 mcg. In addition to administering fentanyl 300 mcg to Patient A, Respondent also documented administering Dilaudid® 0.5 mg, twice.

Patient C had a physician's order for a total of Dilaudid® 0.5 mg. Respondent's documentation of Patient C's pain and discomfort level was inconsistent with the amount of medication administered.

11. During the investigation the Center also reviewed video surveillance which revealed the following:

- a. On September 2, 2015, at approximately 5:34 p.m., Respondent returned to work in plain clothes. Respondent worked earlier in the day and left due to an emergency.
- b. Respondent was observed attempting to enter her supervisor's office where the second key for the narcotics cabinet is located, but the office was locked. Respondent then retrieved the key to her supervisor's office from the receptionist's desk. Respondent was observed going back in the direction of her supervisor's office.
- c. Next, Respondent was observed unlocking the narcotics cabinet. Respondent then reached to the second shelf in the location of the fentanyl and Versed®. Moments later Respondent was observed with a vial in her hand.
- d. Respondent was also observed removing narcotic log sheets from the narcotics cabinet and replacing the narcotic log sheets before she secured the cabinet. The video surveillance did not show what Respondent did to the narcotic log sheets before putting them back in the narcotics cabinet.

12. A review of the narcotic log sheets revealed that Respondent appeared to have altered the "balance forward" line along with other lines on the Versed® log sheets for three separate dates.

13. On September 3, 2015, Respondent's employment was terminated. During the termination phone call, Respondent made several "cryptic" statements which indicated Respondent was going to hurt herself. Respondent's supervisor contacted law enforcement to request a welfare check.

14. During the welfare check, Respondent made suicidal statements to law enforcement. Respondent was advised to seek help and Respondent made the decision to self-admit to a hospital.

15. On September 11, 2015, Respondent entered into an Interim Cessation of Practice Agreement with the State of Colorado Board of Nursing (Colorado Board) in which Respondent agreed not to engage in any acts requiring a professional nursing license by the Colorado Board while the agreement was in effect.

16. On December 4, 2015, in Adams County District Court (Colorado) case number 2015M4110, Respondent plead guilty to and was convicted of one (1) count of theft, \$50 - \$300,

in violation of Colo. Rev. Stat. § 18-4-401(1), (2)(c), a misdemeanor. Respondent failed to report this conviction to the Board.

17. On January 6, 2016, in Broomfield County District Court (Colorado) case number 2015M433, Respondent plead guilty to and was convicted of one (1) count of theft, \$750 - \$2,000, in violation of Colo. Rev. Stat. § 18-4-401(1), (2)(e), a misdemeanor. Respondent failed to report this conviction to the Board.

18. On January 15, 2016, in Boulder County District Court (Colorado) case number 2015CR1467, Respondent plead guilty to and convicted of two (2) counts of possession of a controlled substance in violation of Colo. Rev. Stat. § 18-18-403.5(1), (2)(a), a felony. Respondent's sentence was deferred based on her successful completion of 100-hours of community service, no use of drugs or alcohol, obtain a substance abuse evaluation and treatment as recommended, substance abuse monitoring at the discretion of the probation agent for two (2) years. Respondent failed to report this conviction to the Board.

19. On September 8, 2016, Respondent and the Colorado Board entered into a Stipulation and Final Agency Order (Colorado Stipulation) in lieu of formal discipline. The Colorado Stipulation required Respondent to enter into a contract with Peer Assistance Services (PAS) and to comply and participate in the Nursing Peer Health Assistance or Nurse Alternative to Discipline Program.

20. On October 14, 2016, Respondent's contract with PAS became effective.

21. On November 9, 2016, Respondent renewed her professional nursing license with the Department and declared her residency/practicing state to be Wisconsin.

22. During the online renewal process, Respondent indicated that she read and understood that she was to report any conviction to the Board within 48-hours of the entry of the judgment of conviction since the last renewal. Respondent failed to timely report the convictions as required.

23. On November 24, 2016, Respondent emailed the Colorado Board and requested to "relinquish her license" because she was relocating to Wisconsin and would not be practicing as a nurse.

24. On December 9, 2016, the Colorado Board suspended Respondent's nursing license for failure to comply with the Colorado Stipulation.

25. Respondent was compliant with the PAS contract until her relocation to Wisconsin. Respondent was engaged in treatment and compliant with her probation officer.

26. In resolution of this matter, Respondent consents to the entry of the following Conclusions of Law and Order.

The Board may, on its own motion, grant full Wisconsin licensure at any time.

STAY OF SUSPENSION
