When Herman DeVry invented the portable film projector, he didn't know he was starting a revolution in teaching. He simply understood that visual communication was a better way to learn.

In 1931, Herman founded a university that embraced new technologies. He wanted students to understand the ever-changing landscape and know how to stay ahead of it. Today, DeVry University continues our founder's spirit of innovation in all we teach.

Since technology is at the core of business everywhere, we infuse tech into what we do as well. So that our students move forward confident. Prepared. Ready.

Because the best way for our students to solve the problems of tomorrow is to meet them head-on, armed with knowledge, with eyes wide open.

DeVry University. Forever Forward.

Super Disclaimer:

BRAND RELAUNCH - :30 TV/OLV TECHNOLOGY

When it came to technology, our founder Herman DeVry never settled. Instead, he formed a relationship with tech until it became his ally.

At DeVry University, our students still harness the power of technology.

Super – Business, Health, Tech

Today, it's at our core. Because it's at the core of business, healthcare and tech, everywhere.

Our students dig deep into understanding technology's role so they're ready...

Super – Ready

...for what comes next.

DeVry University. Forever Forward.

Super Disclaimer:

BRAND RELAUNCH – :30 TV/OLV SOLVING PROBLEMS

Problems can be a good thing. Because they force us to find solutions that might take us to a more amazing place.

Since 1931...

Super – Problems

...DeVry University has challenged our students to turn problems into opportunities.

Super - Opportunities

And today, by putting technology at the root of what we teach, our students are armed with the knowledge to find better solutions.

Super – Business, Technology, Health

And move forward feeling bold. Confident. Prepared.

Super – Bold, Confident, Prepared

DeVry University. Forever Forward.

Are you Ready for the Future of Tech?	Interconnectivity is at the core of our digital universe, and staying on top of tech advancements and trends is critical to career success. With 86 percent of U.S. adults 18-29 owning a smartphone, most students, recent grads and longtime employees are seasoned in adopting new technologies. Preparing for the future of automation and digital security can help jobseekers adapt to the future of tech.
The IoT and the Next Five Years	The future of interconnectivity looks bright! The Internet of Things (IoT) is booming, expected to grow to 34 billion devices by the year 2020. GPS units are among the first examples of these devices with built-in computers that can sense things independent from human input, and that technology is rapidly evolving to include wearable fitness trackers and apps that unlock your door. Many wonder, "What's next?"
