### Farming and agricultural distribution

by [Mike](#)

Farming is an essential industry, we would be lost without it, but that doesn't mean that it should just stay as it is forever. In fact, farming has constantly evolved throughout history, adapting to new demands and incorporating new technology as it has appeared. Today, farming faces some of the greatest challenges ever, with environmental impact being a particular factor. ### Cement Truck Driving – a rewarding challenge

by [Mike](#)

One of the greatest things about a career as a truck driver is that there are endless possibilities to find something you love doing every day. While most people think about long distance haulage when they talk about truck driving, there are many other options, and one that really is very different is cement truck driving. Driving a cement truck... The post [Cement Truck Driving – a rewarding challenge](#) appeared first on Diesel Driving School.

**Nine Essentials For Truck Drivers – Diesel Truck Driver Training School**  
How to become a truck driver is a long process. It's not just about getting a license, it's about getting the right training and equipment. Here are nine essentials for truck drivers:  
1. Get the right training. Look for a school that offers a comprehensive program, including classroom instruction, hands-on training, and a CDL exam.  
2. Get the right equipment. Make sure you have the right truck, trailer, and other equipment for the job.  
3. Get the right license. Make sure you have the right license for the job.  
4. Get the right experience. Look for a school that offers a variety of driving experiences, including city, highway, and long-haul.  
5. Get the right support. Look for a school that offers a variety of support services, including financial aid, job placement, and ongoing training.  
6. Get the right network. Look for a school that has a strong network of industry contacts, including trucking companies and suppliers.  
7. Get the right attitude. Make sure you have the right attitude for the job, including a willingness to learn and a strong work ethic.  
8. Get the right health. Make sure you are in good health and have the physical ability to drive a truck.  
9. Get the right mindset. Make sure you have the right mindset for the job, including a focus on safety and a commitment to excellence.
