PREPARE TO SUCCEED

Brightwood Career Institute, powered by Kaplan Home Inspection Training, gives you the knowledge, skills, and confidence to enter the home inspection profession and all of the information you need to succeed in the industry. Everything you need to know to become an independent home inspector and pass the National Home Inspector Examination is included in our series.

EXPERT INSTRUCTORS

Our instructors are all home inspection and construction professionals who know the industry and are committed to helping you get your business off to a strong start. By sharing personal experiences, they will make your learning relevant and fun.

HANDS-ON LEARNING

We have created a unique learning experience by including a state-of-the-art home inspection lab in the classroom—our lab includes hundreds of old and new house components. Practicing what you learn, as you learn it, is the fastest way to build your skills and confidence. With our training methods, you'll develop a competitive edge that will jump start your home inspection business.

LIVE INSPECTIONS

By including field inspections as a part of our curriculum, we have created the ultimate learning experience. You will perform live inspections and learn how to write up the reports. This real-time learning will give you the confidence you need to get your business started—now.

HOME STUDY—PROFESSIONAL DEVELOPMENT

If you find it impossible to make it to our hands-on learning locations, no worries; we have the next best thing. We offer a Home Study Essentials complete suite of college-level study texts that are considered the “gold standard” in the industry, as well as a comprehensive online option for those who enjoy online learning.

ONDEMAND

Our impressive OnDemand video lectures give you the ability to access professional instruction anytime, anywhere you have an Internet connection!*

National Online Home Inspection Course

\$999 | **100 Hours**

Whether you are in the process of becoming licensed or just keeping current with your continuing education needs, this 100-hour comprehensive online course reviews all major home systems and provides in-depth coverage of system and component problems, their practical implications, and inspection strategies for finding them. Interactive exercises, graphic devices, and immediate progress tracking make learning more engaging. With clear descriptions, detailed technical illustrations, and useful product summaries, this course is the fastest way to build your skills and confidence.

HOME STUDY COURSE

Essentials of Home Inspection Home Study Course

\$3,499 | **300+ Hours**

Learn everything you need to know about home systems and components, as well as how to run a home inspection business at your own pace, from your own home!

This comprehensive college-level correspondence course authored by Carson Dunlop has been the “gold standard” in home inspection education for more than a decade. It's perfect for professionals who want flexibility in how and when they study. From roofing and exteriors to structure and mechanicals, all systems that make up the house, as well as all aspects that encompass the home inspection business, are meticulously detailed in this incredible reference set. After completing this program, you will have a solid foundation on the components and materials used in the construction of house systems. You will be able to identify improper installations, defects in construction, and faulty operation systems in a house.

Modules Include:

- Communication and Professional Practice
- Home Reference Book
- Structure
- Roofing
- Exterior
- Insulation and Interiors
- Plumbing
- Electrical
- Heating I
- Heating II
- Air Conditioning and Heat Pumps
