

MARINE TECHNICIAN SPECIALIST

**PROPELLING
YOUR
FUTURE ON
THE WATER**

MARINE MECHANICS INSTITUTE

A DIVISION OF UNIVERSAL TECHNICAL INSTITUTE

Why choose MMI?

- + MMI's program provides you the opportunity to be factory-trained and ready to work on all major brands.
- + Relationships with Honda Marine, Mercury Marine, Suzuki Marine, Volvo Penta and Yamaha Marine mean more opportunities for you.
- + Our industry partnerships ensure you'll receive hands-on training using the most current technology and equipment in state-of-the-industry training centers.
- + MMI is the only school that offers you the opportunity to earn Provisional Mercury Outboard Certification while you train.
- + You focus on career-specific skills so you can graduate quickly with the skills you need for a career doing what you love.

The marine industry wants you

If you love the idea of life by the water, MMI offers career training that can help you get there. When you study at MMI, you'll be taught to meet industry expectations with the knowledge, skills and professionalism to succeed as a Marine Technician. As a graduate, you'll be ready to start your career and fill a growing need at marine dealerships and independent repair shops nationwide.*

As motorized power equipment becomes more sophisticated, employers increasingly prefer to hire mechanics who have completed postsecondary education programs.

Technical skills. Professional attitude.

At MMI, your learning doesn't stop when you close your tool chest. We're preparing you for a successful career and that means learning the business. We expand your skill set with customer relations and dealer management training to give you the professional skills that attract top employers. Along the way, you'll build a foundation for your long-term advancement.

Marine Technician Specialist Program

A SOLID FOUNDATION

At MMI, you'll learn the basics through a combination of classroom preparation and hands-on experience. This program covers key components of marine technology and serves as the basis for your specialty training.

CORE TRAINING COURSES

Engines: 4-stroke and 2-stroke outboards, sterndrive gasoline and diesel engines

Lower Units/Outdrives: Outboard and sterndrive systems

Rigging: Outboard and sterndrive engines, control systems, equipment and accessory installation

Service Operations: Dealer management computer systems, effective customer interaction and communication

Fuel & Lubrication Systems: EPA requirements, carbureted and fuel injection systems, and engine management systems (EMS)

Electrical: Electrical basics, systems and diagnostics for starting, charging, ignition, equipment and accessories

Diesel: Fuel systems and the latest injection systems, including electronic fuel injection

“MMI gave me a great foundation for a career in the marine industry. If you want to work in this industry, it's a great place to start.”

Dan Tule, MMI Graduate
Marine Technician — Boat Tree, Sanford, Florida

MMI's Marine Technician Specialist Program is designed to give you a solid understanding of marine mechanics and technology through hands-on experience. Each course focuses on a specific manufacturer's products and technologies to help you build a strong foundation.

- + Learn from instructors with real world experience and current manufacturer techniques
- + Receive personal training and Student Guides to be used throughout your program and career
- + Prepare for entry-level dealer positions*

*MMI cannot guarantee employment or salary.

“MMI helped me become more professional and get ready to work in the real world.

David McCall, MMI Graduate
Technician – MarineMax Orlando
