

AUTOMOTIVE TECHNICIAN TRAINING

AUTOMOTIVE TECHNOLOGY PROGRAM

The NATEF-accredited Automotive Technology program at Universal Technical Institute (UTI) can teach you the skills you'll need to launch a career.¹ Through intensive, hands-on training in our state-of-the-industry facilities, you'll learn how to diagnose, repair and maintain import and domestic vehicles. And, our industry relationships ensure you'll learn the skills manufacturers say matter most, using the most current technology and equipment.

WHAT'S IN IT FOR YOU:

- + Our Manufacturer-Specific Advanced Training programs provide more opportunities to specialize your training.²
- + A focus on career-specific skills so you can graduate quickly with the skills you need for a career doing what you love
- + An opportunity to be well-prepared to complete ASE exams and substitute your UTI training for one of the two years of work experience required to become ASE certified
- + Snap-On® tool voucher upon graduation³

*The guys I'm here with are just like me.
They live for cars. It's really a passion.
Everything we do is based on what we
love and that's why we're all here.*
