

Testimonials

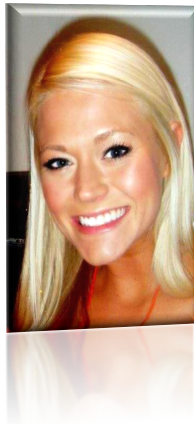

MEET JENNIFER:

Jennifer is a 2013 graduate of the National Dental Academy Campus in Madison, WI. Jenni had been working in the restaurant business in various roles for nearly 10 years. She has two small children and decided that that she needed to do something to help her family become more stable financially and so that she had more time to spend with her kids!

"I chose National Dental Academy because they worked around MY schedule. I was able to work during the week and attend classes on the weekends. I am now working full-time at an oral surgery office in Madison, WI. I can't imagine what I would have done without this school!"

A full time school schedule just wasn't going to work for me. National Dental Academy was flexible and affordable and allowed me to further my education without a huge hassle. I had wonderful Instructors and met a lot of great people in my class!"

MEET AMANDA

Amanda was a recent graduate in our Wausau location. She had been working in the Hospitality Industry for several years before deciding to attend the National Dental Academy.

"I heard an ad on the radio that National Dental Academy was hosting classes in my town. I found myself interested in how I could change my field in ten weeks. Training was intense but I soon found myself working as a Dental Assistant in no time...well it took a little time after I graduated but now I am with an amazing company that offers me incredibly opportunity in the Dental Field. I am sure glad I called."

Amanda is now a head assistant in her practice and helps to mentor Dental Assistant Students

Testimonials

MEET ADAM

"Adam was an absolute pleasure to have in class!" –Teri, Wausau Instructor

Adam was the lone male in our last class in Wausau, WI. When asked about his time with NDA he said, "It was intense but I really enjoyed it. There was a lot of hands-on learning which really helped me. I would definitely recommend this program to anyone who is looking to switch professions quickly! The National Dental Academy Team was also there for me after I graduated. The Enrollment Crew was really helpful in passing along my resume. I am now working at a small office in a small rural community – I love it. I am looking forward to growing my skills; it's nice to know that what I learned at NDA will follow me everywhere.

MEET LORI

"I was a little nervous how things would go for me in the class. I was a little older than my classmates and it had been quite some time since I had been in school. The staff and Instructors made it a very smooth experience for me; they were patient when I had questions and always willing to spend one on one time. My class in Chippewa Falls was a little bit bigger but Instructors were able to pay individualized attention to each of us as needed. I chose to take a Billing Position in a Dental Office after I graduated and my education at NDA has helped me immensely. If I would have entered into my current job with absolutely no training it would have been very, very rough. My Instructor actually heard about the position I have now opening and she recommended me for the position. It took a few months after I graduated but I was very persistent and I am glad that I was. The team was always there to help me if I asked!
