

WHY CHOOSE A CAREER WITH FORD?

NATIONAL PRESENCE: There are more than 3,200 Ford and Lincoln dealerships and more than 650 Quick Lane locations across the United States.

OPPORTUNITY: Approximately 33,000 Ford and Lincoln technicians are on the job and an additional 12,000 service personnel are in positions such as shop foreman, service writer and service manager.

DEMAND: There are approximately 40 million Ford Motor Company vehicles on the road.

GROWTH: Ford and Lincoln dealers are increasing their parts and service sales every year.

ADVANCEMENT: Ford technicians have the opportunity to become Master Technicians and Senior Master Technicians.

“I went into a dealership and showed them my credentials I earned in FACT, and they looked them over and said, ‘Can you start work on Monday?’ Those credentials are worth a lot. It really helps coming in the door with those credentials.”*

Mike Baca // UTI/FACT Graduate Auto Technician
Corley's Albuquerque Lincoln
Albuquerque, New Mexico

FORD FACT

Ford Accelerated Credential Training

A 15-week program specializing in Ford Motor Company curriculum, vehicles and diagnostic equipment

**UNIVERSAL
TECHNICAL
INSTITUTE**

Chosen by Industry. Ready to Work.

TRAIN WITH AN AMERICAN ORIGINAL

Earn Ford Credentials as You Train

As the company that brought the automobile to America's streets, Ford has a longstanding reputation for quality. With Ford Accelerated Credential Training (FACT), you'll get training on Ford vehicles, equipment and procedures valued by Ford and Lincoln service departments around the nation.

Students enrolled in the FACT program have the opportunity to complete the same Ford Service Technician Specialty Training (STST) that Ford provides to its dealership technicians. With STST credentials, graduates earn up to 10 Ford Instructor-led classroom credentials plus 80 required web-based credentials, resulting in the completion of 9 Ford specialty certification areas and progress in 3 more. Students also can achieve Quick Lane certification with Ford's Quick Service and Light Repair Technician Training.

Ford FACT Program

Program Length: 15 weeks*

Topics Covered:

Electrical and Electronics –

Get advanced training on Ford electrical systems and electronics, including SYNC training, multiplexing, networks, module reprogramming, anti-theft, navigation, speed control and supplemental restraints.

Advanced Brake System Diagnosis and Repair –

Learn to perform diagnosis and service on current and past Ford brake systems.

Advanced Climate Control Systems and Diagnosis –

Learn to diagnose Ford's refrigeration, heating, air management and control systems.

Basic and Electronic Steering and Suspension –

Learn about Ford electronic steering and suspension, including diagnostic tools and special procedures.

Engine Repair – Get hands-on experience with Ford OHC, SOHC and DOHC engines, including measuring critical clearances along with proper disassembly and reassembly.

Advanced Diesel Engine Repair and Performance –

Learn about basic diesel, fuel injection and direct injection turbo, including 6.0L, 6.4L and 6.7L Power Stroke® engines.

Noise Vibration and Harshness Diagnosis –

Learn the principals of NVH and vibration frequencies using the latest test equipment, including the MTS 4000.

Engine Performance and Theory –

Gain experience with Ford Integrated Diagnostic System (IDS) for fuel/air, exhaust and emission systems.

Ford Quick Service and Light Repair Technician Training –

Get the knowledge and skills to perform inspections, maintenance and light repairs on today's vehicles using Ford's Quick Lane procedures.

FACT training is conducted by Ford-certified instructors. With a maximum of 20 students per class, the smaller class sizes allow greater interaction between you and your instructors. The training history of every FACT student is recorded in Ford Motor Company's STARS training database.

Program Prerequisites

- Must be an active UTI or NASCAR Tech student or graduate
- Must be at or beyond the midpoint of the training program
- Must have completed all Automotive Technology core program courses with exceptions (please see the catalog for more details)

Financial Aid

Financial aid** for the Ford FACT program may be available. For more information on applying for financial assistance, including grants, student loans, scholarships, ** VA benefits and private financing, contact your advisor in the UTI Financial Aid department.

**20 weeks for UTI-Rancho Cucamonga evening students.*

***Financial aid and scholarships are available to those who qualify. Awards vary due to specific conditions, criteria and state.*
