**ORDER 0007396**

Division of Legal Services and Compliance Case No. 21 MED 273

The parties to this action for the purpose of Wis. Stat. § 227.53 are:

Adil Humayun, M.D.  
Temple, TX 76502

Wisconsin Medical Examining Board  
P.O. Box 8366

The parties in this matter agree to the terms and conditions of the attached Stipulation as the final disposition of this matter, subject to the approval of the Medical Examining Board (Board). The Board has reviewed this Stipulation and considers it acceptable.

Accordingly, the Board in this matter adopts the attached Stipulation and makes the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. Respondent Adil Humayun, M.D., (Year of Birth 1988) is licensed in the state of Wisconsin to practice medicine and surgery, having license number 72294-20, first issued on November 25, 2019, with registration current through October 31, 2023. Respondent's most recent address on file with the Wisconsin Department of Safety and Professional Services (Department) is in Temple, Texas 76502.

2. At all times relevant to this proceeding, Respondent was a senior resident practicing medicine at a medical center's pediatric clinic in Marshfield, Wisconsin (Clinic).

3. On April 8, 2021, Patient A, a four-year-old female, presented to Respondent at the Clinic with her mother, who reported Patient A had experienced nausea, vomiting, decreased

appetite, and intermittent fever since April 5, 2021. The triage nurse charted “when mom rubs on her stomach she says ‘ouch.’”

4. Patient A entered the examination room in a wheelchair. Respondent asked Patient A if she felt comfortable getting out of the wheelchair so he could examine her, but she said she was uncomfortable standing or moving because it caused her to be nauseous and, in fact, began to exhibit dry heaving.

5. Respondent examined Patient A in the wheelchair and did not conduct an examination of Patient A’s abdomen on the examination table. Respondent’s examination demonstrated diffusely distributed tenderness throughout the abdomen with no specific localization and mild voluntary guarding throughout. Respondent charted “[n]o specific tenderness at McBurney’s point, or Murphy’s sign. No masses, rigidity, or organomegaly.”

6. Respondent’s assessment was viral gastritis, charting that Patient A had reassuring signs of hydration and tolerated clear fluids that morning. Respondent maintains that although appendicitis was on list of differential diagnoses, Patient A’s specific complaints and symptomology as presented led him to an assessment of gastritis.

7. Respondent prescribed Zofran and gave instructions to provide small volumes of clear liquids every 15-30 minutes as tolerated, introduce bland foods, and return to the Clinic if Patient A had poor tolerance of fluids, continued vomiting, lethargy, severe abdominal pain, or fevers unresponsive to antipyretics for three or more days.<sup>1</sup>

8. On April 10, 2021, Patient A was brought to the emergency department unresponsive. She died at 4:38 p.m. from acute bacterial peritonitis due to a ruptured appendicitis.

9. In resolution of this matter, Respondent consents to the entry of the following Conclusions of Law and Order.

#### CONCLUSIONS OF LAW

1. The Board has jurisdiction to act in this matter pursuant to Wis. Stat. § 448.02(3) and is authorized to enter into the attached Stipulation pursuant to Wis. Stat. § 227.44(5).

2. By the conduct described in the Findings of Fact, Respondent engaged in unprofessional conduct pursuant to Wis. Admin. Code § Med 10.03(2)(b) by departing from or failing to conform to the standard of minimally competent medical practice which created an unacceptable risk of harm to a patient whether or not the act or omission resulted in actual harm to any person.

3. As a result of the above conduct, Respondent is subject to discipline pursuant to Wis. Stat. § 448.02(3) and Wis. Admin. Code Ch. Med 10.
