EAP Form 1.10 (Rev. 11/18)

The Educational Approval Program (EAP) is a postsecondary education agency that employs a regulatory model focused not only on compliance, but also institutional effectiveness. To facilitate an environment in which schools seek to be effective organizations that improve over time, the EAP requires schools to submit evidence that appropriate planning has been conducted. Although similar to a strategic or business plan, this information will enable the EAP and school officials to engage in a dialogue over time about the effectiveness and future of the school.

Schools that already have some type of strategic or business plan (e.g., schools that have either a corporate or accreditation plan) must adapt these documents to the following requirements and focus on Wisconsin operations and students. <u>The EAP does not expect any school to divulge any sensitive, proprietary business information.</u> The information must address the five elements identified below and provide the information requested.
