

*"Who Else Wants to Go from A Job They Hated into a Career They Love in Just 10 Weeks!?"*

**Be One of Just NINE STUDENTS to Join Us at the National Dental Academy for the Upcoming 10-Week Dental Assistant Training Program and *'Brighten Your Future!'***

Dental Assisting voted Top 25 in Healthcare Support Careers of 2019 by US News and World Report!

Dear Future Student,

Thank you for your interest in this exciting field. Dental Assisting is quite literally one of the best kept secrets, here's why:

1. **Great hours**-Typically dentists only work four days a week, no evenings and they don't work Holidays. Do you work nights, weekends or holidays right now? Do you take any work home with you at your current job? In this field you won't have to worry about any of that!
2. **Great Pay**-Dental Assistants earn on average \$18.09 an hour in 2017 according to the US Bureau of Labor and Statistics. Are you making less or working in a field you hate? It may be time for you to make a change.
3. **Great Benefits**-Dentists are now offering more benefits other than free dental care. They are offering things like Health Insurance, 401k benefits and profit sharing bonuses. More and more dentists are seeing the advantage of offering such great perks to their Assistants!
4. **Job Security**-Dental Assisting is in the health field and statistics shows it's one of the fastest growing fields in the country. Health care is essentially recession proof!
5. **National Dental Academy of WI works with one of the largest dental employers in the country!** We also work with many local dentists in your area. What this means for you is better chances of placement after the course! Some students have even had employment BEFORE they finished the 10 weeks. We are here to support you in your job search - as you embark on your new career!

## **Don't YOU deserve A Better Future Too?**

Quite frankly, there are not many opportunities that exist where you can secure a great new career with just 10-weeks of training; but this IS that unique, limited time opportunity. Our students love this new career path along with the financial stability it brings. Now it's your turn to gain all this and more.

Another factor that is overlooked is in the area of Job Satisfaction. We have heard many times over the years from our students on how much happier they are working in the dental profession as compared to their previous jobs. One student reported, "I literally feel rescued from a factory job I hated and a future I did not look forward to." A parent of another one of our students thanked us personally for giving his daughter a new direction and responsibility in her life. She had been a fast food worker with a small child to raise and just felt trapped. Since completing our Saturday course, she has worked in a dental office for two years now and loves it. Are you happy in your job?

And the Good News is with our 10-Week Dental Assistant Program, as opposed to other programs that can take a year or more in college (\$25,000-\$40,000), Technical School (\$12,000), your investment with National Dental Academy is only \$4,995 which includes everything you need for the course plus some bonuses along the way. We include some unique items such as 10 bonus lectures on a USB Drive with Custom NDA Lanyard (\$1297 Value), Bonus CPR/First Aid Training, Job Placement Assistance and Private in Office Tutoring if needed. We have multiple Easy-Pay options to suit your financial situation. We now offer tuition financing 12, 36, 60 or 96-month repayment options to fit tuition payments into virtually any budget!

So, you owe it to yourself to take advantage of this once-in-a-lifetime opportunity to start an exciting new career path that may change your life and the lives of your loved ones for good! Our schedules/locations change often so if you see one by you, don't miss your chance!

Simply pick up the phone and call us at...

**(715)298-4447**

P.S. You should HURRY and call me to register because there's **ONLY A SMALL NUMBER OF SEATS** and when they fill up, that's it. We keep our classes small to maximize your educational experience.
