## EARN YOUR BACHELOR OF SCIENCE IN NURSING (BSN) DEGREE

As a Registered Nurse (RN), no two days are alike. Each shift brings new patients, unique challenges and endless opportunities to positively impact individuals, families and the community at large.

The Bachelor of Science in Nursing (BSN) degree program at the Milwaukee Campus prepares students to sit for the Wisconsin State NCLEX licensure exam and excel as a Registered Nurse (RN).

### THE THREE-YEAR FULL TIME BSN PROGRAM PROVIDES:

- Evidence-based curriculum that equips students with a foundational understanding of ethics, theory, leadership and technology
- Coursework that includes case studies, collaborative discussions, small group activities, lectures and clinical simulations
- An interactive education complete with modern facilities, advanced medical equipment and simulation laboratories
- Practical experience through clinical rotations in real-world environments with physicians, nurses, health care professionals and patients

### CORE PROGRAM COURSES INCLUDE:

- Pediatric Health Theory & Application
- Interprofessional Communications
- Pharmacology
- Leader in Quality & Patient Safety IV
- Acute & Chronic Health Disruptions in Adults III

The Bachelor of Science in Nursing (BSN) degree program at Arizona College of Nursing is accredited by the Commission on Collegiate Nursing Education (<http://www.ccnaccreditation.org>).

Arizona College of Nursing and Arizona College campuses are institutionally accredited by the Accrediting Bureau of Health Education Schools (ABHES), a U.S. Department of Education-recognized national accrediting agency.

Gain experience & build confidence  
with 630 hours of clinical rotation

Start your path to fulfilling your dream.

# DISCOVER THE OPPORTUNITIES

## LEARN RESPONSIBILITY

An essential part of the medical team, RNs have more responsibility and decision-making capabilities and less direct supervision than some other health care professionals. In a typical day, RNs will:

- Provide direct care to patients
- Discuss treatment options
- Collect medical history
- Assess symptoms and vitals
- Administer IVs and medication
- Supervise the work of more junior colleagues

## CHANGE YOUR JOB WITHOUT CHANGING YOUR CAREER.

## EXPLORE A RANGE OF DEPARTMENTS AND SPECIALIZATIONS.

## WORK IN A WIDE ARRAY OF HEALTH CARE ENVIRONMENTS.

Employment of registered nurses is projected to grow 6% nationally from 2022 to 2032. All other occupations, 3%.\*

Milwaukee Campus | 9000 West Chester Street, Milwaukee, WI 53214

"The staff and nursing faculty truly care about our education. They want everyone to succeed and to become an excellent nurse, and they are always just a phone call or email away."

**Janet Grigoryan**  
Arizona College of Nursing  
BSN Student

"Arizona College of Nursing nurtures minds and strives to develop skills in critical thinking, communication, and teamwork. Faculty members are very supportive and always available to guide your every step."

**Candy Itwaru**  
Arizona College of Nursing  
BSN Student

"My instructors have real world nursing experience and their stories make it easier to understand the material. Arizona College of Nursing is preparing me to become the nurse I have always dreamed of being."
