

**MIDWEST**  
TRUCK DRIVING SCHOOL

# GET YOUR CAREER IN GEAR

*Training The Next Generation of Professional  
Drivers and Operators Since 1998*

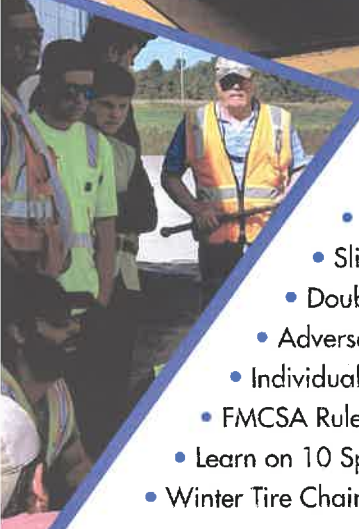

**NORTH COUNTRY**  
HEAVY EQUIPMENT SCHOOL

### MISSION STATEMENT

Midwest Truck Driving School strives to provide you, our students with a phenomenal learning experience while teaching you the skills necessary to succeed as an entry level professional driver.

- Advanced Control Maneuvers
- Road Visual Aids
- Combination Driving Techniques
- Safe and Defensive Driving
- Hazardous Materials and Fueling
- Alley and Offset Alley Docking
- Vehicle Inspections (Pre-trip, En-route, Post-trip)
- Logbooks, Electronic Logging Device (ELD)
- Map Reading and Routing
- Trip Sheets and Bills of Lading
- Job Applications and Interviewing
- Safety Procedures in Freight Handling
- Parrallel Parking Maneuvers
- Coupling, Uncoupling, Drop and Hooks
- Sliding Tandems (Bridge Law, Weight and Length Limits)
- Double Clutching and Changing Gears
- Adverse Weather Training
- Individual Endorsement Training; Hazards, Doubles, Triples and Tankers
- FMCSA Rules and Regulations
- Learn on 10 Speed Manual Transmissions
- Winter Tire Chain Installation

Midwest Truck Driving School has classes all year long, starting every 4 weeks! Students get the chance to experience DOT scales, CAT scales, live dock maneuvers, mountain roads, city and rural driving, crossing Mackinac Bridge, Roundabout Training and much much more! Meet with many recruiters that want to hire you right out of school!

## OVER 85,000 OPEN DRIVER POSITIONS AROUND THE COUNTRY!!

### LOG TRUCK FORESTRY PROGRAM

- 40 Hour Class
- Loader (Jamer) Training
- Loading and Unloading Truck and Pup Trailer
- Lift Axles, Steer axles, Drop axles
- 18 Speed Training
- Maneuvering
- Dropping and hooking
- Wood Sorts
- Forestry Operations
- Weight limits/ Axle limits
- Job Placement

### CLASS A CDL COURSES

- CVTA 160 Hour Class A CDL Training and Professional Driver Development Course consisting of classroom instruction, yard maneuvers, and on the road training

### CLASS B CDL COURSES

- CVTA 40 Hour one week Class B CDL Course

### PASSENGER/SCHOOL BUS CDL COURSE

- CVTA 40 Hour one week Passenger/School Bus CDL Course

Very professional, flexible, understanding team over at the Midwest Truck Driving School. The material covered doesn't just let you obtain your CDL, but sets you up for success in the industry. Great place to learn!

- J. Rogers, Michigan

## HEAVY EQUIPMENT OPERATOR TRAINING

Students will learn how to safely and correctly operate the following equipment:

JOHN DEERE TC54H ARTICULATED  
FRONT END LOADER

JOHN DEERE 690E-LC EXCAVATOR

LOG TRUCK LOADER

JOHN DEERE 672B  
ARTICULATED GRADER

JOHN DEERE 310G ENCLOSED CAB  
4X4 EXTENDAHOE BACKHOE

JOHN DEERE 450 H 6-WAY  
ANGLE BLADE DOZER

MACK TANDEM AXLE DUMP TRUCK

317G COMPACT TRACK LOADER

HITACHI COMPACT EXCAVATOR

### STUDENTS WILL ALSO BE TRAINED TO USE:

Laser Transit with Rods and Detector • Various Hand Tools  
Motorized Compactor Swamp Pads • Load and Cargo Securement  
Regular Transit with Rod Hydraulic Ram  
Measuring and Leveling Devices

### CLASS OBJECTIVES - Each student will learn to:

- Operate an excavator, compact excavator, dozer, backhoe, front end loader, motor grader, dump truck, log truck loader, and compact truck loader.
- Practice safety procedures including use of personal safety equipment and safety inspection of equipment, including the walkaround inspection.
- Learn the Excavation Competent Person Training standards and proper handling of an OSHA inspection and receive Excavation Competent Person Training Program (ECPT) Certification by participating in a 1-day training program which is included in the 4-week class.
- Use laser and regular transits and various leveling devices.
- Complete routine maintenance for each type of heavy equipment.
- Conduct field staking, benchmarking, offset staking and squaring.
- Learn how to load, unload, and properly secure an over-width excavator on a low-boy trailer meeting DOT regulations.
- Learn how to dig trenches, basements, ponds, culvert installation, grading roads, and much much more!

I am now confident about entering the industry  
as an entry-level professional operator.

- Mike, Green Bay, WI

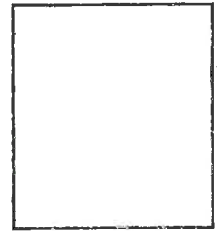

The class meets 5 days a week for 4 weeks totaling 160 hours of combined classroom and hands-on instruction. Class times are from 8:00 am to 4:30 pm daily. The students will be spending the majority of their training out in the training yard, operating industry specific heavy equipment. For more details please call 906-789-3123.

# NORTH COUNTRY ELECTRICAL LINE SCHOOL

[www.ncheschool.com/electrical-line-technician](http://www.ncheschool.com/electrical-line-technician)

# ELECTRICAL LINE TECHNICIAN PROGRAM

Welcome to our Electrical Line Technician Program, designed for individuals seeking comprehensive training in the field of line technology. Over 16 weeks and 640 hours, students will embark on an intensive journey to become proficient in various aspects of electrical line work, setting the foundation for a successful career in this dynamic industry.

## FREQUENTLY ASKED QUESTIONS

- **Who is eligible to enroll in the Electrical Line Technician Program?** Our program is open to individuals with a high school diploma or equivalent. No prior experience in electrical line work is required, although a passion for the field and a commitment to safety are essential.
- **What are the prerequisites for the course?** There are no specific prerequisites for the course. However, students must be physically fit and able to meet the demands of the training, which includes climbing poles and operating heavy equipment.
- **What certifications will I earn upon completing the program?** Graduates of our program will receive a certificate of completion as Electrical Line Technicians. Additionally, depending on the specific modules completed, students may obtain certifications in pole climbing, heavy equipment operation, and Class A CDL, enhancing their employability.
- **What sets your program apart from others?** Our program stands out for its comprehensive approach, combining traditional line technician training with heavy equipment operation and Class A CDL instruction. Additionally, our unique facilities, including the outdoor and indoor pole climbing facility, provide an unmatched learning environment.
- **Can I tour the facilities before enrolling?** Absolutely! We encourage prospective students to schedule a tour of our facilities to see firsthand the equipment, classrooms, and pole climbing areas. Contact our admissions office to arrange a tour at your convenience.

## CAREER OPPORTUNITIES

Upon completion of our Electrical Line Technician Program, graduates will be equipped with the skills and certifications necessary to pursue a rewarding career in the electrical utilities industry. Whether working for utility companies, contractors, or municipal services, our alumni will be in high demand for roles such as:

LINE TECHNICIAN

ELECTRICAL TECHNICIAN

HEAVY EQUIPMENT  
OPERATOR

CONSTRUCTION FOREMAN

UTILITY MAINTENANCE  
TECHNICIAN

Join us on this transformative journey and embark on a fulfilling career in the ever-evolving field of electrical line technology. Apply now and become a part of our esteemed program where innovation meets tradition, and excellence is the standard.

Tuition for the course: \$14990

North Country Electrical Line School is an equal opportunity training program for all persons regardless of age, race, creed, disability, sex, religion, sexual preference or political affiliation.

## PROGRAM HIGHLIGHTS

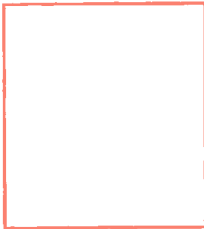

- **COMPREHENSIVE LINE TECHNICIAN TRAINING:** Our program covers the essentials of line work, including safety protocols, electrical theory, equipment handling, and pole climbing techniques. Students will gain hands-on experience in troubleshooting, repairing, and maintaining electrical systems, preparing them for the challenges of the field.
- **HEAVY EQUIPMENT OPERATION:** What sets our program apart is the integration of heavy equipment operation training. In addition to mastering line work skills, students will learn to operate a range of heavy machinery such as backhoes, track loaders, front-end loaders, dozers, and excavators. This diverse skill set enhances employability and widens career opportunities.
- **SPECIALIZED TRAINING:** Our program goes beyond traditional line technician courses by offering specialized training in operating log truck loaders and knuckle boom cranes for swamp pad movement. This unique curriculum equips students with niche skills essential for specific job roles, making them stand out in the competitive job market.
- **DIGGER DERRICK AND BUCKET TRUCK TRAINING:** As part of our comprehensive approach, students will receive thorough training in operating digger derricks and bucket trucks. Proficiency in these specialized vehicles is crucial for various tasks in the field, ensuring our graduates are well-prepared for real-world scenarios.
- **CLASS A CDL TRAINING:** We understand the importance of mobility in the electrical utilities industry. That's why our program includes Class A Commercial Driver's License (CDL) training. Students will learn the necessary skills to operate commercial vehicles, enabling them to transport equipment and materials safely and efficiently.
- **STATE-OF-THE-ART FACILITIES:** Our program boasts the Midwest's first outdoor and indoor pole climbing facility. This cutting-edge setup provides students with a realistic environment to practice climbing techniques safely under expert guidance, bridging the gap between theory and practical application.
