

## STRATFORD CAREER INSTITUTE

### Updates to accompany original Institutional Plan

August 2024

#### Stratford Career Institute

- SCI will introduce new AI tools to its educational staff, which will assist in general research and in various phases of the program development process.
- Having successfully exceeded its 2023 objective of introducing three new education programs to the SCI program roster, the school will introduce a minimum of four (4) new courses in 2024.
- SCI will launch its revised and updated LMS.
- SCI will replace its financial account software with a more integrated, cloud-based accounting package.
- SCI will initiate the process of merging (integrating) its telephony, data network, and computer systems
